PROJECT MANAGER RECRUITMENT

iGEM 2022

EXTENDED DEADLINE: 8th of December

DOES THE WORDS SYNTHETIC BIOLOGY AND STUDENT DRIVEN PROJECT SET YOUR MIND RACING? IT IS TIME TO GET READY FOR IGEM 2022! THE SEARCH FOR THE NEW PROJECT MANAGERS BEGINS. ARE YOU ONE OF THEM?

As a project manager you will oversee the process of team assembly, project formation, planning and execution. It will be your duty to motivate and hold together your team, work closely with university staff to set up lab work during summer and administer efficient work in both lab- and subgroups. The position comes with continuous and high workload between December 2021 and November 2022, but the experiences are irreplaceable – deepened hands-on knowledge in synthetic biology, organizational skills, and leadership skills are on a higher level than you would receive at any regular course!

WANT TO KNOW MORE OR ASK QUESTIONS?

Do not hesitate to contact us by sending an email to: **igemuppsala@gmail.com.** Also check our webpage **igemuppsala.se** and social media: **@igemuppsala** on Facebook and Instagram for more information about iGEM!

HOW TO APPLY?

Scan the QR code to find the form. Fill it in before 8th of December.

WHAT IS IGEM?

iGEM stands for "Internationally Genetically Engineered Machine", a annual worldwide synthetic biology comeptition aimed for undergraduate and graduate university students. Multidisciplinary teams decide and plan around a project of their own choice during the spring. Then, they work all summer long to build genetically engineered systems. This is followed by summarizing their project on a website (wiki) and going to a jamboree in Paris (France) in the autumn. There are more than 300 iGEM teams from all over the world! The iGEM teams work inside and outside the lab, creating sophisticated projects that strive to contribute to their communities and the world.

WHO ARE WE LOOKING FOR?

Students within the fields of biology, biotechnology, chemistry, biomedicine and similar, who want to take up this amazing opportunity to develop themselves.
Previous iGEM experience is not required, the iGEM Uppsala association board as well as previous project managers will guide you through the initial stages of your project!

WHAT DO YOU GET FROM DOING IGEM?

Not only do you gain knowledge, new friends, a nice merit on your CV and the opportunity to go to the competition in Paris – you also get 15 credits as you get registered to specialization courses for doing iGEM! (given you are eligible for the course). You can also get CSN (if you are a Swedish student).

To check that you are eligible for the course:
